SUMMARY

Aspiring Data Analyst and AI Developer with strong foundations in machine learning, data science, and system design. Passionate about building scalable, real-world AI solutions with measurable impact.

EDUCATION

B.Tech in Artificial Intelligence & Data Science

Graduating 2023 – Present

SRKR Engineering College

Department of Artificial Intelligence & Data Science

Relevant coursework: Machine Learning, Data Structures, DBMS, Statistics, Deep Learning

PROJECTS

Car Price Prediction

2024

Regression-based ML system for estimating used car prices.

- Built a regression model using **300+ vehicle records**.
- Achieved **95% prediction accuracy** via feature engineering and tuning.

Dynamic Pricing Model for Ride-Sharing

2024

ML-driven pricing optimization using demand–supply dynamics.

- Designed demand-based features and ensemble models.
- Achieved **R²: 0.84** using Gradient Boosting.

Suraksha – Natural Disaster Prediction System

2024

AI-powered real-time disaster forecasting platform.

- Built ML models for earthquakes, floods, tsunamis, and hurricanes.
- Achieved **95%+ accuracy** with strong generalization.
- Developed REST APIs for real-time predictions and monitoring.

EXPERIENCE

1M1B – Green Skills Academy, Remote: AI & Sustainability Intern

May 2025 – Jun 2025

- Built an AI-based waste classification system using **20,000+ images**.
- Achieved **95%+ accuracy** using CNNs and transfer learning.

Infosys Springboard, Remote: Data Science Intern

Sep 2025 – Nov 2025

- Developed real estate price prediction models with **90% accuracy**.

TECHNICAL SKILLS

Programming Languages: Python, C, SQL

Machine Learning & AI: TensorFlow, Scikit-learn, CNNs, Gradient Boosting, Feature Engineering

Data Science & Analytics: Pandas, NumPy, Matplotlib, Seaborn, Statistical Modeling

Databases & Tools: MySQL, MongoDB, Git, GitHub, Jupyter Notebook, Docker

Frameworks: Flask, REST APIs

CERTIFICATIONS & EXTRACURRICULAR

Smart India Hackathon (SIH) – College Level Selection

2025

Selected for an AI-based disaster management solution.

Tata Data Visualization – Job Simulation (Forage)

June 2024

Executive-level data storytelling and business insights.

BCG Data Science Job Simulation (Forage)

July 2024

Customer churn analysis and strategic data modeling.
